

A Partner for all Your MEDITECH Needs

Our team brings end-to-end MEDITECH expertise, deep knowledge, and an innovative and collaborative approach to deliver world-class implementation experiences with real-world performance improvements.

Comprehensive, effective, and time-tested **Transformative efforts**

Achieve key strategic outcomes to support your strategy and vision.

Performance improvements

Deliver real operational gains in net patient revenue and quality measures. With our comprehensive knowledge of healthcare operations, transform your EHR to deliver efficiencies and results from day one.

Communication strategy

Build buy-in and excitement throughout your organization with transparent and thoughtfully tailored communications.

Project control

Stand up sustainable project management processes to ensure an efficient implementation with a focus on quality.

Success Stories

Yukon Territory

Nordic partnered with Yukon Territory on a MEDITECH Expanse implementation, providing project leadership, project management, and a large team of READY-certified subject matter experts

- Project go-live on-time and on budget
- Continued expansion and optimization
- Knowledge transfer and support
- MEDITECH release management
- Physician training
- Staff backfill and system support

The Nordic Difference

Substantial experience

Nordic has deep leadership, application, and education expertise to lead and support the most complex MEDITECH implementations. Our MEDITECH consultants have successfully completed over 450 healthcare IM/IT projects in the U.S. and Canada over the last five years.

MEDITECH Alliance Partner

Nordic is the leading MEDITECH-certified consultancy and Alliance partner. We have been supporting organizations using MEDITECH as their EHR for more than 40 years.

Valuable guidance

Our experienced professionals can help direct your leadership team through implementation challenges to avoid unnecessary mistakes and delays that can increase cost and lessen the realized benefits of transformation.

Wide range of services

Our consultants can partner with you to advance planning, implementation, optimization, application support (ongoing and legacy), reporting and data, and financials and revenue cycle.

Nordic is one of the best performance improvement consulting firms that I have ever worked with, and I have worked with many. Not only does the team achieve the engagement goals, but they also engage with and value the client team, making the experience collaborative and positive.
